SHIVANKUR GHOSH | PORTFOLIO COPY

A 90-day mandate across traffic, spend and space.

The brief was not simply to increase visits. It was to make the mall more active, improve the value of each visit and activate underutilised retail space.

One integrated plan. Three outcome levers.

01

Grow footfall

Build reasons to visit through campaigns, events and visibility.

02

Increase spend

Improve engagement and encourage visitors to spend more per visit.

03

Activate space

Use promotions and experiences to create value from underutilised areas.

The channel mix was designed to work as a connected system, not a list of isolated activities.

Meet visitors across the journey.

DIGITAL	Campaigns across digital touchpoints
NEWS + WEB	Newspaper and news website visibility
OUTDOOR	Hoardings and local visibility
IN-MALL	Mall branding, flyers and brochures
EXPERIENCE	Events, promotions and retail activations

Integrated marketing, from plan to execution.

CONSULTING

Diagnosed growth levers across footfall, spend and space utilisation.

PLANNING

Connected digital, print, outdoor, in-mall and event channels.

ACTIVATION

Used campaigns, promotions and experiential marketing to support visits.

COMMERCIAL LENS

Kept visitor value and vacant-space utilisation in the outcome frame.

Positioning: integrated marketing consulting and campaign execution.

What this case demonstrates.

01	**Start with business outcomes**	Footfall alone is not the whole commercial story.
02	**Integrate the channel mix**	Digital and traditional media support the same visitor journey.
03	**Make experience part of marketing**	Events and on-ground activations give people reasons to visit.
04	**Track space as an asset**	Vacancy and leasing can sit alongside visitor metrics.
