NOBROKER LOANS / STRATEGIC INITIATIVE

MORE THAN A TOURNAMENT.

A sponsor-funded corporate cricket property connecting lending, housing, brands and communities - with a potential media-rights partnership.

INDIA'S LARGEST CORPORATE SPORTING ECOSYSTEM

VISION / BUSINESS DEVELOPMENT / PARTNER ECOSYSTEM

01 / EXECUTIVE THESIS

A sporting property. A business engine.

Not a one-off cricket day: a repeatable, sponsor-funded IP designed to create value across the NoBroker Loans and NoBroker Hood ecosystems.

INDUSTRY ACCESS

DSAs + bank teams + future ecosystem participants

→

SPONSOR-FUNDED MODEL

Cash sponsorships + barter where applicable

→

COMMERCIAL UPSIDE

Recruitment, relationships, top-line and media value

THE STRATEGIC BET

Use a high-interest corporate cricket platform to improve access to talent and partners, create sponsor inventory, and build a scalable annual business property - with the event budget gated on external funding coverage.

Principle: validate the economics before committing material event spend.

02 / WHY THIS PLATFORM

Cricket creates a shared reason to convene.

The opportunity is to turn attention and participation into relationships that continue long after the final over.

THE INDUSTRY

A dense network of DSAs, banks, NBFCs, builders, housing communities and brands already interacts around lending and property.

THE FORMAT

An IPL-style, team-based format adds identity, aspiration, repeat engagement, friendly rivalry and a reason to build content around participants.

THE IP

A designed annual property can accumulate recognition, sponsor relationships, reusable event assets, media inventory and community participation.

THE SHIFT

From a single match with limited carry-over value to a multi-stakeholder platform with year-round commercial potential.

03 / COMPETITION ARCHITECTURE

Two participant tracks. One shared property.

Group-stage structure: build distinct team identities by ecosystem, then bring the communities together through one tournament brand.

DISTRIBUTION

TRACK A / DSAs

City-wise teams from major Tier-1 cities.

Team-level eligibility anchored in verified individual business performance.

Potential team identity: city, region and DSA network.

INSTITUTIONS

TRACK B / BANK EMPLOYEES

Bank-wise teams across public-sector banks, private banks and NBFCs.

Participating institution must meet the eligibility requirements.

Potential team identity: institution and employee community.

ONE UMBRELLA: CORPORATE CRICKET + ECOSYSTEM

04 / WHY TEAMS PARTICIPATE

Make it worth showing up - and worth coming back.

A mix of tangible rewards, recognition, professional relationships and entertainment.

PRIZE MONEY

A clear competitive reward, subject to approved prize pool and sponsor commitments.

RECOGNITION

Institution, city and individual recognition across event and media touchpoints.

PARTNERSHIPS

Structured networking across DSAs, banks, NBFCs, developers and brands.

ENTERTAINMENT

The core proposition: sport, team pride, spectacle and shared experience.

TRAVEL EXPERIENCES

Potential international trips to premium destinations, subject to sponsor underwriting and approved terms.

05 / STRATEGIC VALUE FOR NOBROKER LOANS

Build access. Improve the relationship economics.

The tournament is a potential business-development platform. These are intended mechanisms to validate, not guaranteed outcomes.

01 / DSA RECRUITMENT

Create a stronger reason for qualified DSAs to engage with NoBroker Loans.

Use city-based participation to support recruitment, visibility and community access.

02 / BANK PARTNERSHIPS

Create higher-value interaction with bank teams and stakeholders.

Potential to improve working relationships, file movement, access to slabs and commissions - subject to independent bank policy and performance.

03 / TOP-LINE LOGIC

Larger quality book -> earlier slab attainment -> higher revenue potential -> lower acquisition cost per DSA -> improved contribution margin potential.

MEASUREMENT GATE Track recruitment, partner activity, file movement, disbursal and contribution before claiming impact.

06 / STRATEGIC NOBROKER HOOD ADVANTAGES

The media layer can become a competitive moat.

NoBroker Hood adds a residential and hyperlocal activation layer beyond the tournament venue.

PROJECT ACCESS

Early access to upcoming residential projects, where commercially agreed.

MEDIA MONETISATION

Stronger monetisation opportunities across in-app inventory and other media assets.

POTENTIAL EXCLUSIVITY

Developer exclusivity arrangements where value and terms support it.

BUYING & PLANNING EDGE

Potential competitive advantage in media asset buying and planning.

IN-APP BRAND INTEGRATION

Easier integration of advertisers and sponsor-led experiences inside the Hood ecosystem.

BANK + BUILDER CAMPAIGNS

Exclusive bank campaigns and hyperlocal sponsor integration opportunities.

NO BROKER HOOD: FROM COMMUNITY PLATFORM TO ADVERTISING + ECOSYSTEM DISTRIBUTION LAYER

07 / FUNDING ARCHITECTURE

External funding first. Event spend second.

The target is a fully sponsor- and barter-funded event model, designed to avoid a net P&L dent for NoBroker Loans.

SPONSORS

Cash or in-kind value

→

EVENT BUDGET

Venue, production, prizes

→

PARTICIPANT VALUE

Competition + experience

→

BUSINESS INVENTORY

Branding, PR, Hood activation

NON-NEGOTIABLE FUNDING GATE

Do not treat “no dent on P&L” as automatic. Confirm signed sponsorships, barter valuations, cost coverage, payment timing and contingency before locking material commitments.

Barter should offset a budgeted cost only when it replaces a real planned expense.

08 / WHO FUNDS IT - AND WHY

Sell access to a relevant, connected audience.

Sponsor packages should be tailored to the commercial objective of each partner, not limited to logo placement.

BANKS / CO-SPONSORS

Industry visibility, partner engagement, employee participation and potential campaign association.

REAL ESTATE / DEVELOPERS

Relationship-building with banks and distribution partners; project visibility and co-promotional opportunities.

SPORTS & LIFESTYLE BRANDS

Exposure and activation for equipment, apparel and cricket-first brands seeking reach and cultural relevance.

NO BROKER HOOD ADVERTISERS

In-residence, OOH and hyperlocal access, with packages designed around eligible media inventory and barter opportunities.

Potential sponsor inventory: naming rights, team sponsorship, kit branding, venue assets, digital content, residential touchpoints and PR.

09 / PROPOSED STRATEGIC MEDIA PARTNERSHIP

Cricbuzz: from sponsor to media-property partner.

A potential partner proposition to build audience, content and monetisable rights around the corporate cricket property. This is a prospecting thesis, not a confirmed partnership.

AUDIENCE DISCOVERY

Use an agreed promotion and distribution plan to reach cricket-focused audiences. Reach, channels and inventory would be validated with Cricbuzz.

MEDIA CONTENT ENGINE

Match coverage, highlights, standings, team profiles, interviews, behind-the-scenes formats and player stories extend interest beyond match day.

NEW COMMERCIAL INVENTORY

Explore presenting sponsorship, branded segments, digital advertising, content integrations and annual sponsor packages.

WHAT NOBROKER LOANS BRINGS

A corporate cricket concept, access to DSA and banking communities, a sponsor network and potential links across lending, housing and residential ecosystems.

WHAT CRICBUZZ COULD GAIN

A differentiated corporate-cricket content property, new sponsor categories, audience engagement opportunities and a platform that could grow across annual editions.

RIGHTS MODEL TO EXPLORE

Explore co-ownership or joint commercialisation of defined broadcast and digital rights, subject to legal rights clearance, platforms and territories, production responsibilities, exclusivity, sponsor conflicts and revenue-share terms.

PROPOSAL ONLY | NO CRICBUZZ PARTICIPATION OR RIGHTS AGREEMENT IS IMPLIED

Take the tournament beyond the stadium.

Connect event participation to residential, in-app and hyperlocal inventory through NoBroker Hood.

PRE-EVENT

Builder-launch integrations
Exclusive banking campaigns
Sponsor-led announcements

DURING EVENT

Brand and sponsor integrations
In-app activations
Content, highlights and team stories

POST-EVENT

Society-first campaigns
Partner follow-ups
Reusable media packages and PR

ADDITIONAL STRATEGIC ADVANTAGES

Early access to projects / potential developer exclusivity / easier advertiser integration / better media inventory monetisation / media planning and buying advantage

The tournament extends beyond stadiums and becomes a monetisable ecosystem layer for NoBroker Hood.

Qualify the individual business behind the team.

Each DSA participant must meet at least one of the two business-performance thresholds in the source brief.

PATH A / SINGLE-MONTH THRESHOLD

₹5 CR

INDIVIDUAL BUSINESS IN ANY ONE MONTH

One qualifying month is sufficient for this route.

OR

PATH B / SIX-MONTH THRESHOLD

₹20 CR

INDIVIDUAL BUSINESS OVER SIX MONTHS

AMJ + JAS 2026: April to September 2026.

VALIDATION

Define the evidence format, verification owner, eligible disbursal/business definition and submission deadline before registrations open.

Onboarded institution. Clear collection thresholds.

Bank-wise teams can represent PSUs, private banks and NBFCs; the banking partner must already be onboarded.

PERIOD	MINIMUM COLLECTION REQUIREMENT	INTERPRETATION
m-1	**At least 10%**	Previous month
m-2	**At least 50%**	Two months back
m-3 to m-12	**100% collections across this period**	From three to twelve months back

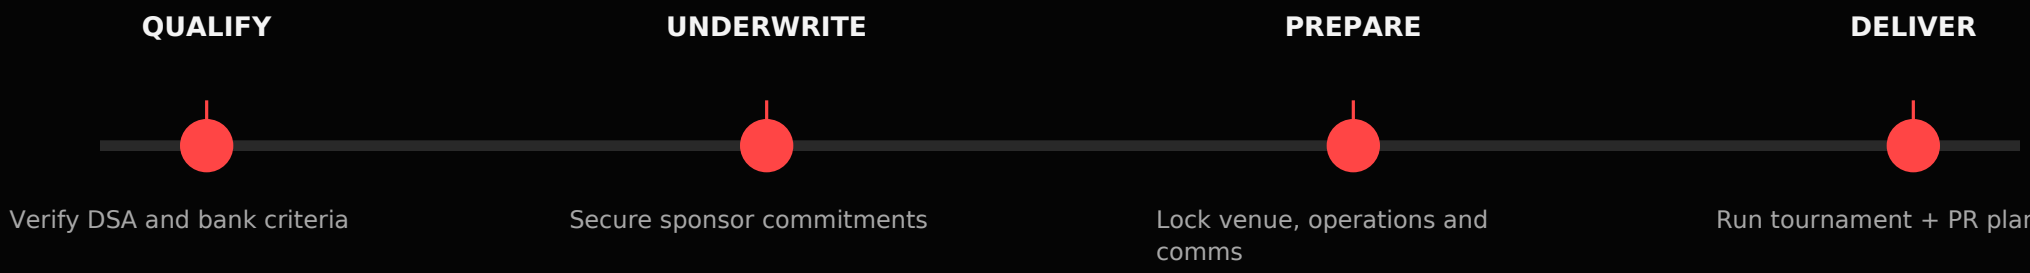

MONTH KEY

m-1 = previous month | m-2 = two months back | m-3 = three months back, and so on. Confirm the reporting definition and documentary evidence with the responsible banking/operations owner before publishing eligibility.

13 / PROPOSED TIMELINE

OND 2026 target window. Dates to be confirmed.

The brief points to the October-November-December quarter, potentially after Pitru Paksha. Treat this as a planning window, not a confirmed event date.

QUALIFICATION PERIOD

DSA volume threshold: AMJ + JAS 2026 where six-month route is used.

Critical path: sponsor coverage and operational readiness before material spend.

Commercial promise needs an operating backbone.

The experience and the economics both depend on clear owners, approvals and delivery standards.

GOVERNANCE

Executive sponsor, event owner, decision rights, approval cadence.

COMMERCIAL

Sponsor packages, valuation, contracts, collections and barter controls.

COMPETITION

Eligibility verification, rules, schedule, officiating and team communications.

OPERATIONS

Venue, production, travel, accommodation, safety, insurance and contingency.

MARKETING + PR

Naming system, brand inventory, content plan, media outreach and approvals.

MEASUREMENT

Baseline, post-event reporting, pipeline attribution and partner feedback.

Score the business outcomes - not just attendance.

Set targets once baselines, budget, inventory and sponsor commitments are validated.

SPONSOR COVERAGE

Share of event budget covered by contracted cash + validated barter.

DSA ACQUISITION

Qualified registrations, onboarding and incremental active DSAs.

BANK ENGAGEMENT

Partner participation, follow-up opportunities and partner feedback.

COMMERCIAL PIPELINE

File movement, disbursal, book growth and contribution, with attribution rules.

HOOD MONETISATION

Sold inventory, in-app integrations, campaign uptake and renewal intent.

BRAND + PR

Reach, earned media, content performance and post-event brand recall where measured.

16 / EXPAND THE PARTICIPANT UNIVERSE

From lending tournament to a multi-industry platform.

Future expansion should be earned in stages, as operating capacity and sponsor value are proven.

NOBROKER HOOD BRAND TEAMS

Brands already advertising or integrated in the Hood ecosystem can participate through corporate teams.

STRATEGIC VALUE
- Stronger advertiser retention
- Deeper sponsor engagement
- Greater ecosystem stickiness

RESIDENT WELFARE ASSOCIATIONS

RWA-led teams from premium societies and residential communities.

STRATEGIC VALUE
- Hyperlocal community integration
- Ecosystem penetration
- Resident engagement and retention

REAL ESTATE ECOSYSTEM

Builders, developers, property promoters, channel partners and auxiliary service providers. Example: Lodha Group (illustrative only; no participation implied).

STRATEGIC VALUE
- Developer relationships
- Co-promotion
- Banking-builder-distribution alignment

LONG-TERM AMBITION: INDIA’S LARGEST INTERCONNECTED REAL ESTATE, BANKING + RESIDENTIAL SPORTING PROPERTY

17 / THE LAUNCH GATES

Protect the economics, brand and experience.

A sponsor-funded ambition only works when the funding, execution and participant rules are real.

GATE 1 / COMMERCIAL COVERAGE

Signed sponsor commitments, cash collection plan and documented barter valuations cover the approved event budget.

GATE 2 / PARTICIPANT RULES

Published eligibility standards, verification ownership, data handling and clear dispute / appeal process.

GATE 3 / SAFE DELIVERY

Venue and production readiness, medical and safety plan, insurance, travel controls and event contingency.

GATE 4 / CLAIMS + ATTRIBUTION

Separate objectives from outcomes; document sponsor delivery and define how any recruitment, revenue or partner impact is attributed.

NOBROKER LOANS × NOBROKER HOOD

MORE THAN A TOURNAMENT.

This is a...

- Business accelerator
- Relationship engine
- Recruitment magnet
- Branding machine
- **Sponsor monetisation engine**
- **Media & advertising ecosystem**
- Relationship moat across banking, housing & distribution
- **Scalable annual business IP**
- **Multi-industry ecosystem platform**

VISION POSITIONING

INDIA’S LARGEST CORPORATE SPORTING ECOSYSTEM

Where Banking, Housing, Brands & Communities Compete Beyond Business.
